A STATEMENT IN DESIGN

Smart innovation, built for everyday living

orient BLDC PRO

Consumes 50% less energy*

Ensures less wear and tear for a long life
This advanced technology represents a new era of smart cooling, with energy efficiency and intelligent controls. Consuming up to 50% less energy, these fans ensure powerful performance while reducing electricity costs.

*As compared to an induction fan

AEROSILENT

Our quietest fan yet

Our quietest fan, delivering powerful airflow while preserving a sense of calm.

ECOTECH VOLT

A Fan with Built-in Battery Backup

Built-in battery backup ensures uninterrupted cooling, even during power outages.

AERO O₂

A fan that helps you breathe better

India's first oxygen-enriching fan goes beyond air circulation, contributing to a healthier indoor environment.

Our Latest Innovations

Combining energy efficiency with breakthrough comfort, reliability, and wellness features.

AEROSILENT

Smooth
whisper-quiet
airflow

ECOTECH VOLT

Battery Backup of
up to 10 hours**

AERO O₂

Restores up to 90%
oxygen in 8 hours

** when operated at speed 1

A fan that
helps you
**Breathe
Better**

India's first oxygen-
enriching fan

AERO 

Aero O₂ is designed to do more than just cool your space. It circulates air while helping improve the overall indoor environment, creating a fresher, more comfortable atmosphere that supports better breathing and a healthier everyday living experience.

Plasma ION
technology

How Aero O₂ Improves Indoor Air

Aero O₂ is engineered to enhance indoor air through advanced plasma ion technology that actively refreshes the air you breathe. By generating bio-oxy ions, it helps break down airborne pollutants and reduce microscopic impurities, creating a cleaner and more balanced indoor environment.

FEATURES

250 CMM
High air delivery for strong, even circulation

38W BLDC
Motor for energy-efficient performance

Smart Remote control
With adjustable canopy

Whisper-quiet
Operation for peaceful comfort

1200 mm
Aerodynamic blades for maximum airflow

Modern design
That blends seamlessly with your home

Boosts Oxygen Levels

Increases indoor oxygen concentration for healthier breathing.

Reduces Harmful Gases

Helps lower NO₂, SO₂ & CO₂ levels by up to 75%.

Neutralises Germs

Plasma ions neutralise airborne bacteria and viruses

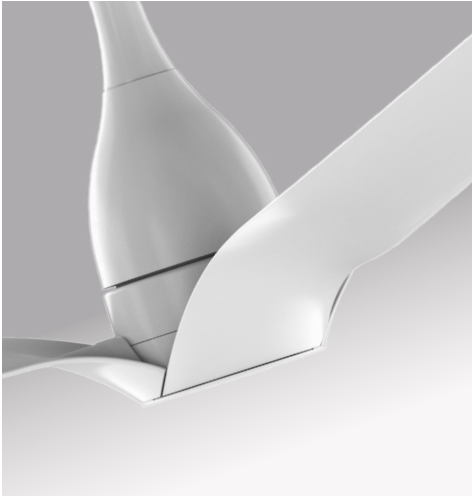

Improves AQI

Enhances indoor air quality by up to 60%.

ORIENT ELECTRIC

A brand that strives to bring
the best of Innovation for you

For over 70 years, Orient has redefined comfort and innovation, becoming a trusted name in homes worldwide. With a commitment to blending design, technology, and performance, we craft solutions that enhance everyday living. At the heart of our journey is a dedication to our customers—bringing thoughtful innovations that prioritise comfort, efficiency, and sustainability. Orient stands as a leader in energy-efficient fans, driven by a vision to deliver smarter, more meaningful experiences in every home.

Pioneering the Future of Fan Manufacturing

The Hyderabad facility represents the next chapter in Orient's journey of excellence in manufacturing. As India's first fully automated fan production plant, it seamlessly integrates advanced Industry 4.0 technologies, autonomous robotics, and sustainable practices. Built to achieve high precision and efficiency, the facility ensures consistent quality in every fan produced with a focus on innovation and sustainability.

70 YEARS OF TRUST

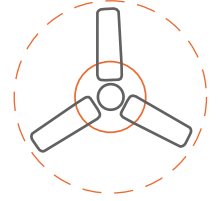

Recognised for our innovation, sustainability, and design excellence, our journey is marked by milestones that reflect our industry leadership.

From 'Most Trusted Brands of India' to the 'Economic Times Iconic Brands of India,' these accolades highlight our commitment to delivering energy-efficient solutions that elevate everyday living.

Fan Buying Guide

Choosing a fan is about more than just cooling - it's about style, comfort, and efficiency.

1 What should be your fans optimal size?

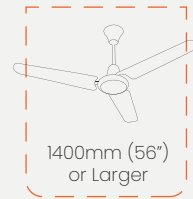

Small rooms
(up to 75 sq. ft.)

Medium rooms
(up to 150 sq. ft.)

Large Rooms
(up to 150 sq. ft. & above)

Energy efficient

2

Stay cool while saving energy. Consuming up to 50% less energy, our BLDC fans offer powerful performance without lowering up electricity bills.

3

Choose your mode

Control your fan, your way - via voice commands, app or remote for effortless operation.

Remote Control

Voice Command

App based Control

Regulator Control

Key features to help you choose

4

Silent Operations

Designed for quiet comfort, our fans ensure a noise-free cooling experience. Ideal for bedrooms, study areas, and peaceful spaces where undisturbed relaxation matters.

High speed and airflow

Powerful airflow with high speed fans that deliver consistent cooling, even in larger spaces.

Heavy Duty Exhaust

THUNDERSTORM PRO

THERMAL OVERLOAD PROTECTION

-  Double ball-bearing
-  Powerful motor with high delivery and thrust
-  Sturdy metallic body for "durability"
-  85° oscillation
-  Floating arrangement for changing the position of oscillation
-  Tilt angle adjustment of 20 angle (in wall)
-  Dedicated 3-step speed control (450mm only)
-  Air direction control by telescopic height adjustment

180	1300	4.3	52
225	1400	4.7	56

Important: To maximize air delivery over the required area, your Orient Electric ceiling fan should be 2.1 meter or more from the ground and 30cm or more below the ceiling. For large rooms with more than one fan, the center distance between each fan will depend on sweep sizes.

Sweep	1400mm	1200mm	1050mm	900mm
Center Distance	3m	2.5m	2m	1.8m

- Visuals shown in the brochure, may vary slightly from actual product • Air delivery may vary $\pm 5\%$
- All specifications are subject to change without any prior notice • Models may change during the year
